

# Medical Center Enterprise Opens New Enterprise Express Care

## Immediate urgent care now available in the Wiregrass community

When you and your family need urgent, but not emergency healthcare, Enterprise Express Care can be the best option. The new express care clinic supplements your family physician's care if you are unable to get an appointment, while the ER can help for accidents or illnesses not treatable at your physician's office. Of course, in a medical emergency you should always call 911 or proceed to the nearest emergency room.

## Enterprise Express Care physician

Walter J. Lawrence, M.D., is the medical director of Enterprise

Express Care, an acute care clinic that offers medical care to both scheduled and walk-in patients with minor medical

problems. Dr. Lawrence is board certified in family medicine and is also a certified aviation medical examiner. He offers thorough and compassionate care, often with same- or next-day appointments. Equally enthusiastic about medicine and the patients he works with, Dr. Lawrence is excited to share his compassion and knowledge in his practice. "I partner with my patients

to make a positive difference in their lives," said Dr. Lawrence. "I believe in treating the 'whole' person, not just symptoms."

Medical Center Enterprise is pleased to have Dr. Lawrence on the hospital's medical staff.
